LEARNING OBJECTIVES:

This focused medicolegal workshop delves into the most critical challenges of contemporary medical practice, covering medical negligence, trauma-informed care in sexual violence, and violence against doctors. Participants will gain understanding of the Digital Personal Data Protection (DPDP) Act 2023 and its implications for patient data privacy in healthcare settings. The workshop will also navigate the ethical and legal dimensions of end-of-life care, including advance medical directives and latest Supreme Court guidelines on the same – empowering healthcare professionals to practice with confidence and clarity.

WHO CAN ATTEND?

Practicing Clinicians & Medical Officers

Postgraduate Medical Students & Residents

Forensic Medicine Specialists

Hospital Administrators & Healthcare Managers

Nursing Leaders & Allied Health Professionals

Legal Professionals working in the Healthcare Domain
